

# You are not alone. WE can help.

Grief after loss of a loved one due to a drug related passing is a unique and lonely grief. Our society treats this loss differently from other deaths, often with judgment and blame from those around us.

We sometimes carry that guilt and shame with no outlet. Grief support groups generally do not address the myriad of emotions connected to this special loss, and we are left feeling more isolated.

Hope After Loss is a place where everyone understands with no judgment or blame, but rather with support and understanding. Join us as we work together on this journey of healing.

## Company Description

TriCircle helps individuals, groups and families remain actively engaged with a sense of purpose. Along with the advantage of lived experience, our clients have access to the education, community engagement, and life skills that create a solid framework for recovery. Participants are offered healthy lifestyle alternatives within a safe environment and have many opportunities and resources needed to inspire others who are affected by the disease of addiction.
