

“Together we are fulfilling the vision and mission of TriCircle. With your ongoing support, we look forward to a bright future filled with hope.”

*– Ana M. Gopoiian
Founder, Executive Director*

Together WE are Stronger!

Hope & Support Groups provide a safe and confidential space for parents, guardians, and others who are concerned about a loved one’s substance use or addiction. All families are welcomed and encouraged to utilize these services at no cost.

Company Description

TriCircle helps individuals, groups and families remain actively engaged with a sense of purpose. Along with the advantage of lived experience, our clients have access to the education, community engagement, and life skills that create a solid framework for recovery. Participants are offered healthy lifestyle alternatives within a safe environment and have many opportunities and resources needed to inspire others who are affected by the disease of addiction.

WE

**inspire hope.
create possibilities.
support people in
finding their purpose.**

We are committed to creating a new recovery model of care for substance use disorders and the possible co-occurring mental health disorders.

We believe treatment should include the families and loved ones of the person affected so they too have a safe environment with long term attention for success.

We know there are multiple pathways to recovery. Everyone has different needs.

We understand that a person needs the time to learn and implement the tools necessary to build a strong future.

We are bringing together all of these resources to empower Connecticut with a new program for people in recovery to thrive in life.
